Issue Description						Warranty Data Analysis								
<ul style="list-style-type: none"> ➤ Sunroof glass shattered while driving at freeway speed, with sunroof and sunshade closed 						Claim Info.	Counts	Rate	Amount(\$)	UIO	Remark			
							Port	Port	Port	172010	Port			
Investigation Results						KMA Request								
<ul style="list-style-type: none"> ➤ Investigation revealed that no apparent reason for glass to shatter, supplier involved, catastrophic failure, the sunshade held up and prevented any glass from harming the driver inside. Needs further investigation  						<ul style="list-style-type: none"> ➤ KMC/KMMG should investigate this condition, make the appropriate corrections and report these findings back to KMA as soon as possible within the proper timeframe for a priority A QIR. ➤ This concern may increase IQS as well as affect a customers perception of quality vehicle. ➤ Our goal of 'XM Drive to 95' maybe be affected by this concern.
